Board of Directors of Directions Credit Union, Inc. and Subsidiary Toledo, Ohio

Independent Auditor's Report

We have audited the accompanying consolidated financial statements of Directions Credit Union, Inc. and its subsidiary, which comprise the consolidated statement of financial condition as of December 31, 2020 and 2019, and the related consolidated statements of income, comprehensive income, changes in members' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Board of Directors of Directions Credit Union, Inc. and Subsidiary Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Directions Credit Union, Inc. and its subsidiary as of December 31, 2020 and 2019, and the results of their operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Nature and Scope of Business

Directions Credit Union, Inc. (the Credit Union) provides a variety of financial services to its members, most of whom live, work, worship, attend school or volunteer in Fulton, Knox, Huron, Wood, Lucas, Richland, Ashland, Wayne, Tuscarawas or Crawford Counties in Ohio, and Monroe and Lenawee Counties in Michigan or members of other select groups. The Credit Union's primary source of revenue is from loans to its members and fees earned on member deposits and services. Its primary source of funds is savings deposits from its members.

Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Directions Credit Union, Inc. and its wholly owned subsidiary TFS Marketing, Inc. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Specifically, management has made estimates based on assumptions for fair value of financial instruments and the assessment of other-than-temporary impairment on investments. Actual results could differ from those estimates.

Investments

The Credit Union's investments are classified and accounted for as follows:

Available-for-Sale (AFS): Government and agency bonds, collateralized mortgage obligations and mortgage-backed securities are classified AFS when the Credit Union anticipates that they could be sold in response to rate changes, prepayment risk, liquidity, availability of and the yield on alternative investments and other market and economic factors. These are reported at fair value. Unrealized gains and losses on AFS investments are recognized as direct increases or decreases in other comprehensive income.

Held-to-Maturity (HTM): Negotiable certificates of deposit and municipal bonds which the Credit Union has the positive intent and ability to hold to maturity are reported at cost.

Other: Non-negotiable certificates of deposit, investments in corporate credit union non-maturing capital, investments in the Central Liquidity Facility and Federal Home Loan Bank stock are carried at cost. Investments in credit union service organizations (CUSO) are recorded at cost or the equity method, based on the Credit Union's percentage of ownership or its ability to influence the operational decisions of those entities.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

<u>Investments</u> (continued)

Purchase premiums and discounts are recognized in interest income using the interest method over the terms of the investments. Declines in the fair value of held-to-maturity investments below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. Management evaluates investments for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. In estimating other-than-temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer and (3) the intent and ability of the Credit Union to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Gains and losses on the sale of investments are recorded on the trade date and the costs of investments sold are determined using the specific identification method.

Market changes in interest rates and market changes in credit spreads will cause normal fluctuations in the market price of investments and the possibility of temporary unrealized losses.

Loans to Members, Loan Participations and Allowance for Loan Losses

The Credit Union grants mortgage and consumer loans to members and participates in business loans. Loans and loan participations receivable are stated at unpaid principal balances, less an allowance for loan losses and net deferred loan origination fees and discounts. Interest on loans and loan participations is recognized over the term of the loan and is calculated using the simple-interest method on principal amounts outstanding.

The accrual of interest on loans and loan participations is discontinued at the time the loan is 90 days' delinquent unless the credit is well secured and in process of collection. Credit card loans and other personal loans are typically charged off no later than 180 days past due. Past due status is based on contractual terms of the loan. In all cases, loans are placed on non-accrual or charged-off at an earlier date if management believes, after considering economic conditions, business conditions and collection efforts, that collection of principal or interest is considered doubtful. All interest accrued but not collected for loans that are placed on non-accrual or charged off is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Indirect loan origination costs are deferred, and the net fee or cost is recognized as an adjustment to interest income.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Loans to Members, Loan Participations and Allowance for Loan Losses (continued)

The Credit Union invests in loan participations through an entity that is owned by credit unions. The entity provides the underwriting and servicing for loans made to participants. The participation interests range from 1.3% to 90% of the loan balances. The participations are without recourse, and as result, the Credit Union must reflect any losses on these loans. The Credit Union determines an estimated amount of reserves required on these participations using performance and collateral data provided by the servicer.

The allowance for loan and participation losses reflects management's judgment of probable loan losses inherent in the portfolio at the date of the consolidated statement of financial condition. The Credit Union uses a disciplined process and methodology to establish the allowance for loan losses each quarter. To determine the total allowance for loan losses, management estimates the reserves needed for each segment of the portfolio, including loans analyzed individually and loans analyzed on a pooled basis. The allowance for loan losses consists of amounts applicable to: (1) the auto loan portfolio; (2) participation portfolio; (3) the real estate portfolio; (4) the credit card portfolio; (5) student loan portfolio and (6) all other loans.

To determine the balance of the allowance account, loans are pooled by portfolio segment and losses are modeled using historical experience and quantitative and other mathematical techniques over the loss emergence period. Management exercises significant judgment in determining the estimation method that fits the credit risk characteristics of each portfolio segment. Management must use judgment in establishing additional input metrics for the modeling processes. The models and assumptions used to determine the allowance are independently validated and reviewed to ensure that their theoretical foundation, assumptions, data integrity, computational processes, reporting practices and end-user controls are appropriate and properly documented.

The establishment of the allowance for loan losses relies on a consistent process that requires management review and judgment and responds to changes in economic conditions, member behavior and collateral value, among other influences. From time to time, events or economic factors may affect the loan portfolio, causing management to provide additional amounts to or release balances from the allowance for loan losses. The Credit Union's allowance for loan losses is sensitive to risk ratings assigned to individually evaluated loans and economic assumptions and delinquency trends driving statistically modeled reserves.

December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Loans to Members, Loan Participations and Allowance for Loan Losses (continued)

In situations where, for economic or legal reasons related to a members' financial difficulties, the Credit Union grants a concession for other than an insignificant period of time to the member that the Credit Union would not otherwise consider, the related loan is classified as a troubled debt restructure (TDR). The Credit Union strives to identify members in financial difficulty early and work with them to modify to more affordable terms before their loan reaches nonaccrual status. These modified terms may include rate reductions, principal forgiveness, payment forbearances and other actions intended to minimize the economic loss and to avoid foreclosure or repossession of the collateral. In cases where the Credit Union grants the member new terms that provide for a reduction of either interest or principal, the Credit Union measures any impairment on the restructuring as previously noted for impaired loans.

Management monitors differences between estimated and actual incurred loan losses. This monitoring process includes periodic assessments by senior management of loan portfolios and the models used to estimate incurred losses in those portfolios. Additions to the allowance for loan losses are made by charges to the provision for loan losses. Credit exposures deemed to be uncollectible are charged against the allowance for loan losses. Recoveries of previously charged-off amounts are credited to the allowance for loan losses.

The Credit Union considers a loan to be impaired when, based on current information and events, the Credit Union determines that the Credit Union will not be able to collect all amounts due according to the loan contract, including scheduled interest payments. Determination of impairment is treated the same across all classes of loans. When the Credit Union identifies a loan as impaired, the Credit Union measures the impairment based on the present value of expected future cash flows, discounted at the loan's effective interest rate, except when the sole (remaining) source of repayment for the loan is the operation or liquidation of the collateral. In these cases, the Credit Union uses the current fair value of the collateral, less selling costs when foreclosure is probable, instead of discounted cash flows. If the Credit Union determines that the value of the impaired loan is less than the recorded investment in the loan (net of previous charge-offs, deferred loan fees or costs and unamortized premium or discount), the Credit Union recognizes impairment through an allowance estimate or a charge-off to the allowance. The Credit Union evaluates loans for impairment when it reaches 60 days past due or when it is classified as a TDR.

When the ultimate collectability of the total principal of an impaired loan is in doubt and the loan is on nonaccrual status, all payments are applied to principal, under the cost recovery method. When the ultimate collectability of the total principal of an impaired loan is not in doubt and the loan is on nonaccrual status, contractual interest is credited to interest income when received, under the cash basis method.

The overall credit quality of the loan and loan participation portfolio is monitored by management based on current loan performance, historical losses and delinquency status.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Loan Charge-Offs

For consumer loans, the Credit Union generally fully or partially charges down to the fair value of collateral securing the asset when:

- management judges the asset to be uncollectible;
- repayment is deemed to be protracted beyond reasonable time frames;
- the asset has been classified as a loss by either the Credit Union's internal loan review process or external examiners;
- the member has filed bankruptcy and the loss becomes evident owing to a lack of assets; or
- the loan is 90 days past due unless both well secured and in the process of collection.

Property and Equipment

Land and land improvements are carried at cost. Building, building improvements, furniture and equipment are carried at cost, less accumulated depreciation and amortization. The building, building improvements and furniture and equipment are depreciated using the straight-line method over the estimated useful lives of the assets. The cost of leasehold improvements is amortized using the straight-line method over the terms of the related leases. Maintenance and repairs that neither improve nor extend the life of the respective asset are charged to expense as incurred. Assets purchased but not yet placed into service are capitalized and depreciation is not computed until the asset's placed in service date. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in income for the year. The lives of the assets range from 3 to 40 years.

Goodwill

Goodwill represents the excess of costs over fair value of assets acquired. In accordance with GAAP, a private company may amortize goodwill over a life of 10 years, or shorter if management demonstrates a shorter life is appropriate. The Credit Union tests for impairment at the company level when a triggering event, as defined by GAAP, occurs. In determining impairment, management first reviews certain qualitative factors followed by quantitative factors, if necessary. An impairment loss is recognized to the extent the carrying value of the entity exceeds its fair value. No such impairment loss was recorded during 2020 and 2019.

Mortgage Servicing Rights

A mortgage servicing right (MSR) is established only when the loans are sold or when servicing is contractually separated from the underlying mortgages by sale or securitization of the loans with servicing rights retained. The initial carrying value of the asset is established based on its relative fair value at the time of the sale using assumptions that are consistent with assumptions used at the time to estimate the fair value of the total MSR portfolio. All servicing rights are subsequently carried at the lower of the initial carrying value, adjusted for amortization or fair value, and are included in other assets.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Mortgage Servicing Rights (continued)

Servicing rights are evaluated periodically for impairment based on the fair value of those rights using a disaggregated approach. The fair value of the servicing rights is determined by estimating the present value of future net cash flows, taking into consideration market loan prepayment, discount rates, servicing costs and other economic factors. Temporary impairment is recognized in a valuation allowance against the mortgage servicing rights. The Credit Union also analyzes its MSR's periodically for other-than-temporary impairment. Other-than-temporary impairment is recognized as a direct reduction of the carrying value of the mortgage servicing right and cannot be recovered. No other-than-temporary impairment was recognized in the years ended December 31, 2020 and 2019. Servicing rights are amortized over the period of, and in proportion to, the estimated future net servicing revenue. Amortization is recorded as reduction in interest income on loans in the Credit Unions' consolidated statement of income.

Core Deposit Intangible Asset

A core deposit intangible asset arises when a credit union acquires another institution that has a deposit base associated with stable member relationships. The intangible asset exists due to these member relationships providing a net benefit to the acquiring credit union. Core deposit accounts consist of checking accounts, money market accounts and savings accounts. The major assumptions used to value them include estimating balances to be retained, future cost savings from low cost funding provided, and the application of appropriate discount rates to estimated cash flows.

Valuation of Long-Lived Assets

Long-lived assets and certain identifiable intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Management reviews all material assets annually for possible impairment. If such assets are considered to be impaired, the impairment recognized is measured as the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. During 2020 and 2019, management determined there was no impairment to the assets.

Share Insurance Deposit

The deposit in the National Credit Union Share Insurance Fund (NCUSIF) is in accordance with National Credit Union Administration (NCUA) regulations, which require the maintenance of a deposit by each insured credit union in an amount equal to one percent of its insured shares. The deposit would be refunded to the Credit Union if its insurance coverage is terminated, it converts to insurance coverage from another source or the operations of the fund are transferred from the NCUA board.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Share Insurance Premiums

A credit union is required to pay an annual insurance premium equal to one-twelfth of one percent of its total insured shares, unless the payment is waived or reduced by the NCUA Board

Excess Share Insurance

The deposit in the Excess Share Insurance (ESI) program provides additional insurance coverage of \$250,000 once a member's balance exceeds the coverage provided by the Credit Union's primary insurer, which requires the maintenance of a one-percent refundable at-risk deposit by each insured credit union based on the maximum policy limits of coverage. Insured credit unions are also required to pay a quarterly premium based on the actual reported coverage and the credit union's financial condition and rating.

Share Accounts

Members' shares are subordinated to all other liabilities of the Credit Union upon liquidation. Interest on members' share and savings accounts is based on available earnings at the end of an interest period and is not guaranteed by the Credit Union. Interest rates on members' share accounts are set by the Board of Directors, based on an evaluation of current and future market conditions.

Members' Equity

The Credit Union is required by regulation to maintain a statutory reserve. This reserve, which represents a regulatory restriction of retained earnings, is not available for the payment of interest.

Reserve Requirement

In 2001, the NCUA revised the regulatory net worth requirements for credit unions. Credit unions that are classified as "well capitalized" (net worth ratio of 7% or higher) are not required to make statutory transfers to the regular reserve. The regular reserve has been established at the discretion of the Board of Directors to protect the interests of the members. The Board may, at times, change the reserved amount for specific requirements.

Lending-Related Income

Lending-related income includes fees earned from loan commitments, standby letters of credit, financial guarantees, and other loan-servicing activities. Lending-related income is recognized at the point in time the service is provided.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Card Income

Card income includes interchange income from credit and debit cards and fees earned from processing card transactions for merchants, both of which are recognized when purchases are made by a member. Certain Credit Union card products offer the member the ability to earn points based on account activity, which the member can choose to redeem for cash and non-cash rewards. The cost to the Credit Union varies based on the terms and conditions of the rewards program, member usage, and member redemption rates. The Credit Union maintains a liability for its obligations under its rewards program and reports the costs as a reduction of card income. During 2020 and 2019, the expense related to the rewards program was approximately \$649,000 and \$638,000, respectively. Card income is recognized at the point in time the service is provided.

Deposit-Related Income

Deposit-related income includes fees earned from performing cash management activities and other deposit account services. Deposit-related income is recognized at the point in time the service is provided.

Mortgage-Related Income

Mortgage-related income includes fees and income recognized as earned on mortgage loans originated with the intent to sell or service. Gains and losses on sales of mortgage loans held-for-sale are included. Mortgage servicing revenue includes operating revenue earned from servicing third-party mortgage loans which is recognized over the period in which the service is provided.

Other Income

Other income includes income earned from the Credit Union's wholly-owned subsidiary, rental income from the Credit Union's building, gains and losses on the sale of investments and gains and losses on the disposal of fixed assets.

Advertising Expense

The Credit Union expenses advertising costs as incurred. Advertising expense was \$1,589,229 and \$1,277,824 for the years ended December 31, 2020 and 2019, respectively.

Comprehensive Income (Loss)

Comprehensive income consists of net income (loss) and other comprehensive income (loss) that includes costs related to unrealized gains and losses on investments classified as available-for-sale.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Income Taxes

As a credit union, the Credit Union is exempt from federal, state and local taxes under the provisions of 501(c)(14) of the Internal Revenue Code.

The Credit Union accounts for uncertainty in income taxes in its consolidated financial statements as required under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), Accounting for Uncertainty in Income Taxes. The standard prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The standard also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition accounting. Management determined there were no material uncertain positions taken by the Credit Union in its tax returns.

Fair Values of Financial Instruments

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical
 assets or liabilities that the entity has the ability to access at the measurement date.
 Level 1 inputs provide the most reliable measure of fair value as of the measurement
 date.
- Level 2 inputs are based on significant observable inputs, including unadjusted quoted
 market prices for similar assets and liabilities in active markets, unadjusted quoted
 prices for identical or similar assets or liabilities in markets that are not active, or
 inputs other than quoted prices that are observable for the asset or liability.
- Level 3 are significant unobservable inputs for the asset or liability.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Investments – Available-for-Sale: Fair values of investments are based on significant observable inputs or market prices for similar investments, unadjusted quoted prices for similar investments or other relevant broker quotes. These assets represent a Level 2 fair value hierarchy.

Other Assets – Mortgage Servicing Rights: The fair value of mortgage servicing rights is determined by estimating the present value of future net cash flows, taking into consideration market loan prepayment, discount rates, servicing costs and other economic factors. These assets represent a Level 2 fair value hierarchy.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

Fair Values of Financial Instruments (continued)

The Credit Union has no financial instruments that are held or issued for trading purposes.

Off-Statement of Financial Condition Credit Related Financial Instruments

In the ordinary course of business, the Credit Union has entered into commitments to extend credit. Such financial instruments are recorded when they are funded.

Concentration of Credit Risk

The Credit Union's business activity is primarily with members who all live or work in the same geographic area (Northwest and North Central Ohio and Southern Michigan). This creates a concentration of credit risk from members with loans from the Credit Union, since they may all be affected by the same economic conditions in this geographic area.

New Accounting Pronouncements

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This standard replaces the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to form credit loss estimates. The amendments in this update require a financial asset (or a group of financial assets) measured at amortized cost basis to be presented at the net amount expected to be collected. The new Current Expected Credit Losses (CECL) model will apply to the allowance for loan losses, available-for-sale and held-tomaturity debt securities, purchased financial assets with credit deterioration, and certain off-statement of financial condition credit exposures. The Credit Union will apply the standard's provisions as a cumulative-effect adjustment to unappropriated undivided earnings as of the beginning of the first reporting period in which the guidance is effective. This ASU will become effective for the Credit Union for annual periods beginning after December 15, 2022. Management is currently evaluating the potential impact of ASU No. 2016-13 on the Credit Union's consolidated financial statements.

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements (continued)

The FASB issued ASU 2016-02, a new standard for both lessees and lessors. Under its core principle, a lessee will recognize lease assets and liabilities on the statement of financial condition for nearly all lease arrangements. The option of an operating lease that is recorded off-statement of financial condition will be significantly limited in its use. In measuring assets and liabilities arising from a lease, a lessee (and a lessor) should include payments to be made in optional periods only if the lessee is reasonably certain to exercise an option to extend the lease or not to exercise an option to terminate the lease. Similarly, optional payments to purchase the underlying asset should be included in the measurement of lease assets and lease liabilities only if the lessee is reasonably certain to exercise that purchase option. For a lessee, the effect of recording all leases as debt might affect financial covenants that exist in loan and other agreements. The lessor accounting remains largely consistent with existing GAAP. The new standard is effective for the Credit Union for annual periods beginning after December 15, 2021 and there are several options as to how the new pronouncement can be implemented. Management is currently evaluating the potential impact of ASU No. 2016-02 on the Credit Union's consolidated financial statements.

Cash and Cash Equivalents

In 2020 and 2019, insurance coverage was \$250,000 per depositor at each financial institution, and cash and cash equivalent balances, at times, may exceed federally insured limits. The balance of cash and cash equivalents in excess of federally insured limits was approximately \$140.4 million and \$46.9 million at December 31, 2020 and 2019, respectively.

Cash and cash equivalents include money market accounts, Federal funds and any highly liquid debt-instruments.

IRA accounts	42,476		77,434
Share and IRA certificates	2,799,186		2,817,694
Total dividend expenses	\$ 3,815,393		\$ 4,768,620
		i	

The aggregate amount of members' share accounts that exceed the NCUA's primary insured limit and the Credit Union's excess insurance, at December 31, 2020 and 2019 totaled \$8,750,520 and \$7,442,296, respectively.

Borrowings

The Credit Union maintains a \$15,000,000 note payable - line of credit borrowing arrangement with Corporate One Federal Credit Union. The line of credit is collateralized by substantially all assets of the Credit Union. There were no borrowings outstanding under this agreement at December 31, 2020 and 2019.

The Credit Union also maintains a note payable – line of credit borrowing arrangement with the FHLB that provides borrowing capacity that is collateralized by substantially all of the Credit Union's 1 - 4 family first mortgages. The amount of credit available under this arrangement was approximately \$165,000,0000 and \$158,600,000 at December 31, 2020 and 2019, respectively. There were no borrowings under this arrangement at December 31, 2020 and \$1,000,000 at December 31, 2019. The interest rate on the borrowings was 1.81% at December 31, 2019.

Related Party Transactions

The official family of the Credit Union includes Board members, supervisory committee members, credit committee members and staff. Loans receivable from and shares payable to members of the official Credit Union family at December 31 were as follows:

	2020	2019
Loans	\$ 11,811,898	\$ 14,888,763
Shares	6,851,135	7,850,495

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Employee Benefits

The Credit Union has entered into three Collateral Assignment Split-Dollar Life Insurance Arrangements with officers of the organization. The life insurance policy is owned by the officer but premiums are paid by the Credit Union. The premiums paid are recorded as loan receivables from the participants. The imputed interest rate on the loans is treated as compensation for the officers.

The Credit Union has a profit-sharing plan covering substantially all employees. This discretionary contribution is determined by the Board of Directors annually. The Credit Union had a liability of \$270,000 and \$190,000 accrued as of December 31, 2020 and 2019, respectively.

The Credit Union also has a 401(k) salary reduction plan. Employees are eligible for participation when they have attained eighteen years of age and completed six months of service. The Credit Union may make discretionary matching contributions. The employer contributions for the years ended December 31, 2020 and 2019 were \$162,446 and \$144,706, respectively.

Commitments and Contingent Liabilities

The Credit Union is a party to various legal actions normally associated with financial institutions, the aggregate effect of which, in management's and legal counsel's opinion, would not be material to the financial condition of the Credit Union.

The Credit Union has extended lines of credit to members who have not been entirely drawn at December 31, 2020 and 2019. The available credit to members that has not been reflected in the consolidated financial statements was as follows:

	2020	2019
Loan Type:		
Business loans	\$ 2,093,320	\$ 1,642,449
Open-end loans	8,028,463	4,483,723
Credit cards	111,478,368	118,431,810
Construction loans	14,563,414	11,480,687
Home equity loans	23,944,529	18,171,174
Overdraft protection	21,665,324	23,817,539
		,
Total	\$ 181,773,418	\$ 178,027,382
		1

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Leases

The Credit Union leases six of its branch office locations under long-term lease arrangements. These leases are accounted for as operating leases and have minimum payment requirements summarized as follows:

Lease Property	Lease Expiration	Remaining Payment Obligations
Lambertville Westgate Village Reynolds Rd Hawley Owens Corning Whiteford Maumee Towers	9/30/2022 3/31/2025 7/31/2027 12/31/2021 10/31/2023 12/31/2028 12/31/2030	\$ 115,500 329,065 340,214 12,000 100,520 597,407 8,085,927
Total remaining obligations		\$ 9,580,633

The future minimum lease payments under these leases at December 31, 2020 are as follows:

2021	\$ 1,060,837
2022	1,048,881
2023	1,010,094
2024	1,001,730
2025	957,753
2026 and thereafter	4,501,338
Total obligation	\$ 9,580,633

Rent expense totaled \$1,017,166 and \$1,333,685 for the years ended December 31, 2020 and 2019, respectively.

Rental Income

The Credit Union has entered into various lease agreements with unrelated tenants to lease portions of its buildings. The lease agreements are for various lengths.

Future minimum rental payments (not reflecting the renewal options of the operating leases) at December 31, 2020 are as follows:

2021	\$ 57,000
2022	44,350
2023	43,200
2024	43,200
Total obligation	\$ 187,750

Notes to Consolidated Financial Statements
December 31, 2020 and 2019

Regulatory Capital

The Credit Union is subject to various regulatory capital requirements administered by the NCUA. Failure to meet minimum capital requirements can initiate certain mandatory—and possibly additional discretionary—actions by regulators that, if undertaken, could have a direct material effect on the Credit Union's consolidated financial statements. Under capital adequacy regulations and the regulatory framework for prompt corrective action, the Credit Union must meet specific capital regulations that involve quantitative measures of the Credit Union's assets, liabilities, and certain off-balance-sheet items as calculated under generally accepted accounting principles. The Credit Union's capital amounts and net worth classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Credit Union to maintain minimum amounts and ratios (set forth in the table below) of net worth (as defined in the regulations) to total assets (as defined). Credit unions are also required to calculate a Risk-Based Net Worth (RBNW) Requirement, which establishes whether or not the Credit Union will be considered "complex" under the regulatory framework. The Credit Union's RBNW ratio as of December 31, 2020 and 2019 was 5.22% and 5.67%, respectively. The minimum ratio to be considered complex under the regulatory framework is 6%. Management believes, as of December 31, 2020, that the Credit Union meets all capital adequacy requirements to which it is subject.

As of December 31, 2020, the most recent call-reporting period, NCUA categorized the Credit Union as "well capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well capitalized," the Credit Union must maintain a minimum net worth ratio of 7% of assets and meet any applicable RBNW requirements. There are no conditions or events since that notification that management believes have changed the Credit Union's category.

The Credit Union's actual capital amounts and ratios as of December 31 are also presented in the table (dollars in thousands):

	Act	Actual		To Be Ad Capitalized Prompt C Action P	Under the orrective		To Be Capitalized Prompt C Action P	Under the orrective
	Amount	Ratio		Amount Ratio		Amount		Ratio
December 31, 2020	\$ 90,287	8.45%	\$	64,124	>6.00%	\$	74,811	>7.00%
December 31, 2019	\$ 85,541	9.61%	\$	53,394	>6.00%	\$	62,293	>7.00%

Subsequent Events - Date of Management's Review

Management has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued. In March 2020, the World Health Organization declared the global novel coronavirus disease (COVID-19) outbreak a pandemic. As a result of the spread of COVID-19, economic uncertainties have arisen that are likely to negatively impact the results of operations. However, the Credit Union cannot reasonably estimate at this time the specific extent, duration or full impact that the COVID-19 pandemic will have on its financial condition and operations.
